Attorney's Docket No.: 08191-022001

## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Mary Lynne Hedley                          Art Unit : 1648  
Serial No. : 10/074,956                                  Examiner : Myron G. Hill  
Filed : February 12, 2002  
Title : METHODS OF TREATING BLADDER DISORDERS

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

RESPONSE TO RESTRICTION REQUIREMENT

In response to the Restriction Requirement dated March 12, 2004, applicant elects the invention of Group I, drawn to the embodiment of claims 1-12 and 14-18. Applicant also elects "preventive" methods (at page 5 of the Restriction Requirement, the Examiner required an election of "preventing" or "treating" as applied to Group I). The election is made with traverse.

Claim 1 is broadly directed to a method of "modulating an immune response" and encompasses both "preventive" methods as well as "therapeutic" methods. Requiring an election of either "preventive" methods or "therapeutic" methods improperly requires applicant to rewrite and limit the scope of the claimed invention. Accordingly, applicant respectfully submits that independent claim 1 should be examined as presently written and that the requirement for restriction between "preventive" methods and "therapeutic" methods should be withdrawn.
